

LENTEK
PestContro[®]
5-IN-1 SYSTEM

**DIRECTIONS
 FOR USE**

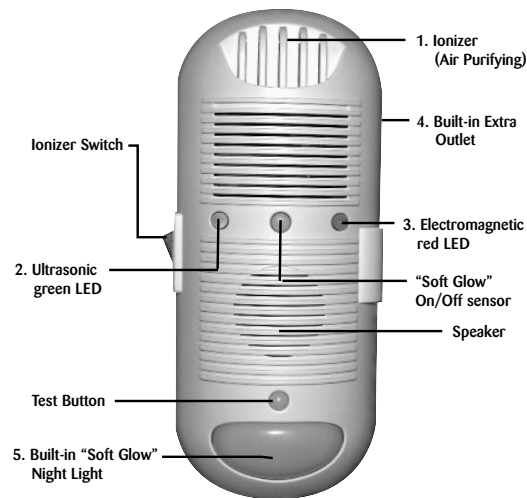

PC51

Congratulations on your purchase of the PestContro 5-in-1. You have purchased a quality product that has been thoroughly tested to meet the highest standards. Your product is backed by a TWO YEAR Limited Warranty from a leader in electronic pest control technology, Lentek International. Your complete satisfaction is important to us. Please read through the directions thoroughly and then enjoy your PestContro 5-IN-1 System. Thank you!

Directions For Use

Just plug PestContro 5-IN-1 System into a centrally located outlet unobstructed by furniture and other objects.

Ultrasonic Sound Features

The PestContro 5-IN-1 System incorporates a speaker that creates a harsh ultrasonic siren, inaudible to humans. See commonly asked questions for additional information on ultrasonic sound.

Ionizer On/Off Switch

The switch is illuminated when the Ionizer feature is in the "ON" position.

Test Button

When the PestContro 5-IN-1 System is plugged into a power outlet, pushing the test button will lower the ultrasonic frequencies to an audible human level. Pushing the test button will allow you to hear the different ultrasonic features.

CAUTION: To avoid hearing damage, do not use the Test button for long periods of time and do not allow children to play with the test switch.

5-IN-1 Features:

1. Ionizer (Air Purifying)
2. Ultrasonic
3. Electromagnetic
4. Built-in extra outlet
5. Built-in "Soft Glow" night light

LED's

Each LED represents different properties of PestContro 5-IN-1 System. The Red LED will continually flash. The green LED's represent sound emitting from each of the speakers. The Green LED's will randomly turn on and off.

Power

The PestContro 5-IN-1 System is powered by a 110 volt outlet, or the represented power configuration indicated on the outside of the box. For worldwide applications, make sure you are using the correct plug configuration or the proper power converter that conforms to the local voltage and outlets. Contact your local dealer or Koolatron if you have a question concerning power issues.

Specifications:

Power input: 120V AC 60Hz
 Safety standards: c ETL us
 Power consumption: 15 watts

CAUTION: To reduce the risk of fire or electrical shock, unit is for indoor use only; do not expose to water; do not immerse.

Success Stories

Throughout the past few years, we have received thousands of letters on Lentek Products success stories. We would love to hear from you. Please write to:

QUESTIONS call 888-353-6835

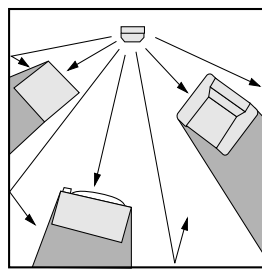

Placement of the Unit

We recommend placing the unit in the one room where you have the greatest pest problem or a centrally located open area within the home. Plug multiple units in opposite sides of the room or in unprotected rooms. Multiple units will create a ricochet effect with the sound.

Sound 'Shadows'

Ultrasonic soundwaves travel in straight lines like audible sounds, echoing off non-absorbing materials. Sound absorbing materials such as carpets, drapes and soft furniture will reduce the range. 'Shadow' areas may occur around corners or in nooks and crannies where the sound waves can not reach.

The Electronic Ultrasonic PestContro 5-IN-1 System has produced an innovative breakthrough in rodent and pest control...

HOW DOES ULTRASONIC TECHNOLOGY WORK?

The Electronic Ultrasonic PestContro 5-IN-1 System emits set sounds determined by settings on the unit (See Ultrasonic Sound Features). This allows the device to target different pests, such as mice and rats. Pests do not like this constantly changing environment, which causes them to leave the area. The PC51 utilizes "Sweep Sound Technology (SST)", a Lentek feature that creates a fluctuating ultrasonic sound to target pests within the ranges. This creates a constantly changing sound environment to pests that is difficult to ignore.

WILL IT AFFECT APPLIANCES or PETS?

No. It will not affect computers or appliances. The PC51 generates ultrasonic sound waves which are above the hearing range of humans, dogs, cats, fish, and birds. These ultrasonic frequencies CAN be heard by rodent pets such as, hamsters, gerbils, and rabbits. However, by positioning the unit in an area away from the rodent pet, you will not cause it discomfort.

HOW MANY WILL I NEED?

This device can provide coverage for an average size home. Larger homes or multiple floor homes and structures will need multiple units throughout for adequate effectiveness. Since each home is different, place the device in the area with the most problems and monitor the results.

HOW QUICKLY WILL I SEE RESULTS?

Allow up to 60 days for satisfactory results. Glue boards and/or traps may be used to help during the initial clean-up period. After results have been obtained, keep the device plugged in for continuous coverage.

DIRECTIONS FOR USE

Simply plug the device into an unobstructed wall outlet in the room to be covered by ultrasonic sound power. Coverage in a room can be improved by bouncing the sound off reflecting objects such walls, mirrors, cupboard doors, and appliances. Obtaining a ricochet pattern will increase effective coverage. The ultrasonic sound benefits will travel to adjoining rooms, only if doors are left open. Ultrasound can not transmit through walls and doors. There will be a stronger effect of ultrasound within the room where it is placed. If you would like additional ultrasound protection, we recommend you purchase an additional device.

SATISFACTION GUARANTEED

If not completely satisfied, return the PestContro 5-IN-1 System unit to the retailer where purchased or to Lentek within 60 days of purchase, together with a copy of your receipt, for a refund of the full purchase price.

TWO YEAR LIMITED WARRANTY

Mail this part of the warranty: (fill out information, make copy and send)

Your manufacturer's limited warranty is now effective. Please mail this card to Koolatron:

Date: _____ Item# _____

Purchased from: Retail Store Mail Order Other :

Retailer's Name: _____

Address: _____

Your Name: _____

Address: _____

City: _____

State: _____

Zip: _____ Phone: _____ Age: _____

Mail this portion of the card to:

KOOLATRON/Orlando, 1101 N. Keller Rd., Suite F, Orlando, Florida 32810

SAVE THIS PART OF THE LIMITED WARRANTY

Please return the top portion of this warranty card to Koolatron, while retaining this portion for your records.

1. Koolatron warrants this product to be free of manufacturing defects. Should any such defect develop or become evident within TWO years from the date of purchase, Koolatron will replace the entire product or, at its option, repair or replace the defective part(s) without charge.
2. To return, Securely pack the entire unit. Be sure carton clearly identifies sender by name and address. Attach a letter or card, describing defect, and original sales receipt. Mail prepaid to the address shown below.

If you have any questions, or would like to learn more about Koolatron, please contact in the continental USA at: 888-353-6835. Please keep for your records:
