## Dog Off PDO1

Your personal safety is important – protect yourself with Dog Off™ from Lentek!

- Ultrasonic Dog Repeller
- Personal alarm
- Flashlight

Congratulations on your decision protect yourself with Lentek's Dog Off™. This unit has been designed to release an ultrasonic wave that will transmit 50 feet. The ultrasonic sound emitted by Dog Off™ gets dogs' attention and stops them in their tracks. The sound is irritating to dogs, but is completely safe, humane, and inaudible to humans. Dog Off™ can be handy for joggers, postal workers and meter readers.

Dog Off™ can also be used as a training device. No more dogs digging through your trash or tearing up your garden! Teach your dog what furniture they're not allowed on! Use the high-pitch signal to train a dog and correct its behavior.

Law enforcement officers across the country recommend personal alarms as the safest and most effective method of personal protection. The Dog Off™ includes a high decibel alarm to protect you from human attackers – it's both a repellent and a call for help. It's as easy as pulling the switch or pressing the button. Also included for your safety is a handy flashlight.

These instructions will provide you with the safe method of use for Dog Off. Please read through the directions thoroughly before use.

This hand size unit comes with an attachable belt clip and a wrist strap for ease of use.

### Installing the battery:

1. Snap off the rubber cover to install one 9V battery
2. Snap cover back into place

### Note:

- Dog Off's ultrasonic wave is not harmful to humans animals.
- To ensure your safety is protected by the personal alarm, take notice of your flashlight's intensity. If it appears to weaken, it may be time to replace the battery

### Operation:

1. To turn on the flashlight, press and hold the side button. To turn off the flashlight, release the side button.
2. To activate the ultrasonic repellent, press and hold the yellow Dog Off button. To release the ultrasonic repellent, release the yellow Dog Off button.
3. To sound the personal alarm, pull the switch at the top of the unit. To turn the personal alarm off, replace the switch at the top of the unit.
