

12V Baby Bottle Warmer

Before using your bottle warmer, please carefully read these instructions, and retain them in a safe place.

- Plug unit in only through a 12V cigarette lighter outlet, or approved 12V accessory outlet.
- Always unplug unit after use and before cleaning, or if there is any sign of unit malfunctioning.
- Do not use unit if it shows signs of a damaged cord or there are any signs of deterioration of the unit.
- Children are not often aware of the dangers associated with electrical appliance use. Please do not allow children to use this product without supervision.
- Koolatron will not be held responsible for any damages caused by improper or erroneous use of this product.

FEATURES

- Plugs into your vehicle's 12V socket
- Saves time and money while on the go
- Ideal for cars, trucks, boats and RVs
- For use with glass and plastic reusable bottles (not for use with disposable bottles)
- Built-in thermostat
- Removable heating pad, max. temp 104°F (40°C)
- Storing pocket for the power cord
- Hanging velcro belts

USE

- Fill bottle with freshly prepared liquid and close cover. Place bottle in the bottle warmer and close the cover and outside pocket.
- Plug the warmer into an approved 12V outlet.
- Liquid will reheat uniformly, however, always verify the temperature of contents prior to serving.
- To transport, the bottle can be left inside the warmer, unplug unit and store the power cord in the handy side pocket.
- With the aid of the velcro straps, the unit can be strapped to the stroller or bag handles.

CLEANING

- Use a wet cloth for cleaning, do not immerse in water, not dishwasher-safe

12V Baby Bottle Warmer
