

STAINLESS STEEL COOLER

- **Caution, Children can get trapped and suffocate in this airtight cooler. Keep out of their reach when not in use.**
- **Please remove by peeling off the clear protective film wrap from the front of the cooler/logo area before use.**

Care Instructions and Tips

1. **WATER AND A CLOTH.** Routine cleaning can be accomplished by using warm water and a cloth. This is the best option for cleaning stainless steel. Dry the cooler with a towel or cloth to prevent water spots. This is very important, since minerals in water can leave marks on stainless steel. Wipe in the directions of the polish lines for best and most beautiful results. Microfiber cleaning cloths are ideal for cleaning stainless steel, because they do a great job of absorbing all of the water without scratching the surface.
2. **MILD DETERGENT, (DISH WASHING LIQUID) AND CLOTH.** For cleaning that needs more power, mild detergent and warm water can do a great job without damaging your stainless steel cooler exterior. A drop of mild dish detergent and warm water can help you get tougher dirt off of your stainless steel cooler exterior. Start with a small sink of warm water with a few drops of dish soap, or put a small drop of dish soap on a cloth. Add warm water to the cloth and rub the dish soap to create suds on your cleaning cloth. Wipe down the dirty area. After you've finished washing away the dirt, make sure you rinse the surface thoroughly to prevent staining and spotting. It is important to towel dry to prevent water spots, which can be caused by minerals in water.
3. **GLASS CLEANER FOR FINGERPRINTS.** Fingerprints are one of the biggest complaints about stainless steel, but can be taken care of by using glass cleaner or household ammonia. No matter what you decide to use, spray the cleaner on a microfiber cloth rather than spraying directly onto the cooler exterior. With a cloth, wipe the stainless steel area gently in a circular motion to remove the finger prints. Repeat as needed. Rinse thoroughly and towel dry.
4. **STAINLESS STEEL CLEANER.** If you have had staining or scratching on your cooler's exterior, or need to polish your stainless steel, a stainless steel cleaner may be a good option. Some of these cleaners and polishes can help minimize scratching and remove stains. They also can polish surfaces nicely. Read the directions on the stainless steel cleaner and test in an inconspicuous spot. Be sure to rinse thoroughly and towel dry.

Warranty

This product is warranted to the retail customer for 90 days from date of retail purchase, against defects in material and workmanship.

WHAT IS COVERED

- Replacement parts and labor.
- Transportation charges to customer for the repaired product.

WHAT IS NOT COVERED

- Damage caused by abuse, accident, misuse, or neglect.
- Transportation of the unit or component from the customer to the Master Service Center.

IMPLIED WARRANTIES

Any implied warranties, including the implied warranty of merchantability are also limited to the duration of 90 days from the date of retail purchase.

WARRANTY REGISTRATION

Register on-line at www.koolatron.com AND keep the original, dated, sales receipt with this manual.

WARRANTY AND SERVICE PROCEDURE

If you have a problem with your unit, or require replacement parts, please direct all service related calls to Koolatron at the following number for assistance:

North America 1-800-265-8456

Master Service Centers are at these locations:

U.S.A.
4330 Commerce Dr.
Batavia, NY 14020-4102

Canada
139 Copernicus Blvd.
Brantford, ON N3P 1N4

A Master Service Center must perform all warranty work
